

I believe you need to LEAVE INDIANAS LAW ALONE. I have a very busy life style. example: Three Children, two businesses, three dogs and more. The fact is, if someone calls me it should be important. Not someone wanting my opinion or trying to sell me things I didn't ask for. Believe it or not life is so much simpler when you are not rushing to the phone, with a baby in your arms and a toddler on your leg, for someone wanting to sell you higher long distance rates then what you already have.
